Before you begin

Smoking: my story and my diary

Two parts to work on before your cohort begins: your story, and a daily diary. Print these pages, or copy the questions into a notebook that you keep for the whole programme. Write as much or as little as you like. Nothing needs to be shared.

Part 1: My story

1. When did you smoke your first cigarette? How old were you, and what was happening in your life at the time?

2. Why did you start? Who was around you, and what did smoking give you then?

3. How has your smoking changed over the years? Think of times you smoked more, less, or stopped for a while.

4. What have you tried before to stop or cut down, and what did you learn from it?

5. What does smoking give you now? And what does it cost you: your health, money, relationships, how you feel about yourself?

6. What has brought you to this group, now?

7. Who are you becoming? Describe yourself as someone who no longer smokes.

Part 2: My diary

Keep this diary every day until the cohort begins, and keep going as you go through the programme. You don't need to change anything yet: just notice. Write one line for each cigarette.
