Week 2: Urges

Noticing cravings in the body, and urge surfing

Work through this on your own, and bring what came up to Monday's live session.

1. Describe a craving from this week as if it were weather. How did it arrive, peak and pass?

2. Where in your body do urges show up first?

3. What happened when you breathed with an urge instead of acting on it?

4. What helps you ride the wave? What makes it harder?
